

Plantation Journal 2021-22

Range : Companigonj Range

Area: 500 hectare mangrove plantation

Beat : Char Balua Beat

**Project : Sustainable Forests and Livelihoods
(SUFAL) Project**

Coastal Forest Division, Noakhali.

General Information of Mangrove Plantation Created in 2021-2022 under SUFAL Project:

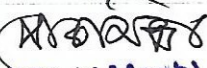

01. District	:	Noakhali
02. Forest Division	:	Coastal Forest Division, Noakhali.
03. Upazila	:	Hatiya
04. Range	:	Companigonj Range
05. Beat	:	Char Balua Range
06. Location	:	Bhasanchar
07. Project	:	Sustainable Forests and Livelihoods (SUFAL) Project
08. Size	:	500.0 hectare
09. Species	:	Keora, Geowa & Bine
10. No. of Seedlings	:	22,22,000 Nos.
11. Plant to plant & line to line distance	:	1.5x1.5 meters
12. Garden Border	:	
a. Bhasanchar	:	a) In the north- Low land & Sandeep channel. b) In the south- Low land. c) In the East- Sandeep channel & Plantation area of Charbata Range. d) In the West- Low land.
13. Pre-condition for Garden creation	:	The newly awakened char was initially muddy. When the grass grows in it, it is suitable for planting.
14. Companion Crops	:	No other plant grows in the primitive state except the uri grass. With the planting of Keora seedlings, other species arrive.
15. Topography	:	First, a plain is formed in the mud. Tides inundate twice daily. Tides are strong from mid-March to October. Tides are slower in winter. So char is permanent. During November to January, silt accumulates more and the amount of fodder increases. At this time, 50 to 90 cm of sediment accumulates.
16. Soil structure	:	Sandy loamy clay soil.
17. Weather & Rainfall	:	Rainfall is high from May to September Annual rainfall is 2500 mm.
18. Seedling method	:	First fix a pillar is surveyed and boundaries are marked. Later, seedlings

with roots are taken from the mangrove nursery and the seedlings are planted by straightening the lines with the help of long ropes at a distance of 1.5x1.5 meters. After a few days, the seedlings are re-planted in the places where the seedlings die. Saplings are planted from 01/12/21 to 31/12/21. As soon as the saplings are planted, the saplings are drowned in the tide water. During high tides, silt rolls over the planted saplings and the saplings are thrown under the silt soil. This is why the whole year. Dhariya mangrove plantations should be planted.

19. Name & Designation of the Officers, stuffs Involved in the Garden lifting Activities:

- A. Mr.Md.Farid Meah, DFO.
- B. Mr. Kazi Tarikur Rahman, ACF.
- C. Mr. Md. Firoj Alam Chowdhury, Forest Ranger, Range Officer
- D. Mr. Uttam Kumar Borua, Forester, Beat Officer.
- E. Mr. Yeasin Khondakar, Forest Guard.
- F. Mr. Md. Atahar Ali, Forest Guard.
- G. Mr. Sribhas Chandra Mazumdar, Plantation Mali.

20. Signature of the officers Involved in the Garden lifting Activities:

Sl. No.	Designation	Signature
