PLANTATION JOURNAL OF STRIP PLANTATION

"Sustainable Forest & Livelihood (SUFAL) Project"

Basic Information:

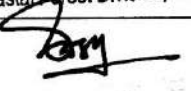

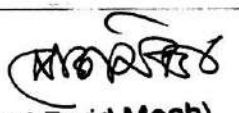

1. District : Noakhali
2. Forest Division : Coastal Forest Division, Noakhali.
3. Upazila : Noakhali Sadar
4. Center : Mizdhee SFNTC
5. Union : Awshadia, Kaladoraph & Underchar
6. Project : Sustainable Forests & Livelihoods (SUFAL) Project.
7. Area : 20.0 Seedling Kilometers.
8. Place of plantation :
 - A) West Awshadia aslam borkondaj Jame Mashjid To Kala Chandpur (West site of Noakhali Khal)(Awshadia Union) Area: 5.0 S.k.m
N- N-
E- E-
 - B) Monshitaluk To Mandartoli Madrasa (Both side of Road)
(Kaladoraph Union), Area: 9.0 S.k.m
N- N-
E- E-
 - C) North Sollakiya To Kazirtalok Primary School (Both side of Road).
(Kaladoraph & Underchar Union), Area: 6.0 S.k.m
N- N-
E- E-
9. Species : Jhaw, Raintree, Koroi, Arjun, Neem, Guava, Jackfruit, Mahagoni, Akashmoni, Babla, Krisnachura, Sunalo, Jharul, Khathbadam, Koromcha, Amloki, Raintree, Kodbel, Jham, Hortaki, Bohera, Mango, Babla, Natai etc.
10. No. of seedlings : 20,000 (Twenty Thousand).
11. No. of Participants : 210 Nos.
12. Site Selection Criteria : The plantation site is selected through the meeting with UP Chairman, UP Members and other local Elites.
13. Species selection : When the best possible information has been collected on the characteristics of the site to be planted, the next step is the selection of the tree species to plant. The aim is to choose species which are suited to the site, will remain healthy throughout the anticipated rotation, will produce acceptable growth and yield, and will meet the objectives of the plantation (fuel wood production, protection, etc.).

- 14. Time of planting** : The planting season (June) generally coincides with the rainy season; usually, planting is started as soon as a specified quantity of rain has fallen. This amount of precipitation must be judged on the basis of local knowledge. Planting can also be initiated when the soil is wet to a specified depth (approximately 20 centimeters).
- 15. Soil structure** : Sandy loam soil
- 16. Planting method** : The plantation site is a rural connecting road & canal site and it is connected to the main road. canal site is surrounded with arable/ agricultural, human settlements while scattered trees are seen/existed. On the month of June, both sides of the canal bushes have been cleaned to make suitable for the plantation. On the same month, Arhar has also been given with a view to support the seedlings by making line at both sides of the road. On the following month, pits have been done with the size of 30cm × 30cm × 30cm keeping distance in between pits 2m. Moreover, mixed Cowdung and Chemical Fertilizer put into the pits according to the SUFAL Manual's land preparation for the plantation. For raising strip plantation, 100000 (One Lac) matured seedlings of several species such as Jhaw, Raintree, Koroi, Arjun, Neem, Guava, Jackfruit, Mahagoni, Akashmoni, Babla, Krisnachura, Sunalo, Jharul, Khathbadam, Koromcha, Amloki, Raintree, Kodbel, Jham, Hortaki, Bohera, Jamrul, Babla, Natai etc have been planted in the nourished/prepared pits. After that, 5 fit size sticks put in the soil which are tied by the rope with the seedlings. Since, there are the chances of grazing and other unavoidable harmful activities, a number of Watchers have been appointed to tackle the plantation site from damage and deterioration. Besides, selected beneficiaries and field level staff of the Forest Department are also looking after the plantation site. An Agreement between the Forest Department acting on behalf of The Government of the People's Republic of Bangladesh (1st Party) and Land Owing Agencies (2nd Party) and Group of Local Participants-Selected Beneficiaries (Third Party) is or will be done. Furthermore, a committee will also be formed within the plantation site from the selected beneficiaries to make sustainable of the ongoing 20 Seedling Km Strip Plantation.

17. Name & Designation of the Officers & stuffs Involved in the Plantation Raising Activities:

1. Md. Farid Meah Divisional Forest Officer Coastal Forest Division, Noakhali.	2. Kazi Tariqur Rahman Assistant Conservator of Forest Coastal Forest Division, Noakhali.
3. Sheikh Md. Kamruzzaman Officer in Charge, Mizdhee SFNTC Coastal Forest Division, Noakhali.	4. Md. Shajahan Forest Guard Mizdhee SFNTC Coastal Forest Division, Noakhali.
5. Md. Alauddin Forest Guard Mizdhee SFNTC Coastal Forest Division, Noakhali.	6. Mosleh Uddin SBD Mizdhee SFNTC Coastal Forest Division, Noakhali.
7. Makhloker Rahman Plantation Mali, Mizdhee SFNTC Coastal Forest Division, Noakhali.	

18. Signature of the officers Involved in the Raising Plantation Activities:

Sl	Name	Designation	Signature
01	Sheikh Md. Kamruzzaman Forester	Officer in Charge Maijdee SFNTC Coastal Forest Division, Noakhali.	 Sheikh Md. kamruzzaman Officer In-Charge, Maijdee SFNTC Coastal Forest Division, Noakhali.
02	Mr. Kazi Tariqur Rahman Assistant Conservator of Forest	Assistant Conservator of Forest Coastal Forest Division, Noakhali.	 Kazi Tariqur Rahman Assistant Conservator of Forests Coastal Forest Division, Noakhali
03	Mr. Md. Farid Meah DCF	Divisional Forest Officer Coastal Forest Division, Noakhali.	 (Md Farid Meah) Deputy Conservator of forests Divisional Forest Officer Coastal Forest Division, Noakhali.

EXPENDITURE SHEET

Center: Maijdee SFNTC, Costal Forest Division, Noakhali.

Project: Sustainable Forests & Livelihoods (SUFAL) Project

SL. No.	Month	Particulars	Amount		NPB
			Current	Progress	
01.	June/2022	Daily labors were engaged from 01/06/2022 to 30/06/2022 at Maijdee SFNTC for Survey the plantaiton site & prepare plantation site map and Post planting survery and making of map GPS readings at every turn along the boundary of the plantation site need to be noted on the plantation journal, Cutting of bushes to be done by participants, Layout by participants, Arhar seeds collection and sowing of Arhar including hoeing, Stacking including fastening of seedlings with stack by shootly, pit making, leave the pits open for about 2 weeks, procure compost or decomposed cowdung, 0.5 kg per pit, mix these manures properly with the soil in the pit, pulverize the soil, mix it with compost remove all debris, root pieces, plalnt the seedlings by taking off the bags carefully, transportation to the planting site, Application of nitrogenous fertilizer after two month of planing, post planting survey and making of map & fixing of a RCC plantaion board etc for 20.0 km Strip Plantation in 2021-2022 financial year under SUFAL Project.	2,45,000/-	2,45,000/-	
		Sub Total	2,45,000/-	2,45,000/-	
		Charges for supply of goods by the contractor	1,33,000/-	1,33,000/-	
		Grand Total	3,78,000/-	3,78,000/-
