

Mangrove Plantation Journal

2023-24

Project: Sustainable Forest and Livelihoods (SUFAL) project.

Mangrove Plantation

Range: Char Alexander Range

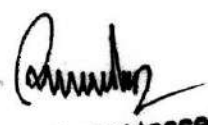

Beat: Vayarchar Beat

Area: 700.0 hectare Mangrove Plantation

Coastal forest Division, Noakhali.

General Information of Mangrove Plantation Created in 2023-2024 under SUFAL Project.

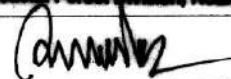

01. District	:	Noakhali
02. Forest Division	:	Coastal Forest Division, Noakhali,
03. Upazila	:	Hatiya
04. Range	:	Char Alexander Range
05. Beat	:	Vayarchar Beat
06. Location	:	Gangurear Char
07. Project	:	Sustainable Forests and Livelihoods (SUFAL) Project
08. Size	:	700.0 hectare
09. Species	:	Keora
10. No. Os Seedlings	:	31,10,800.0 Nos.
11. Plant to plant & line to line distance	:	1.5 x 1.5 meters
12. Garden Border Gangurear Char	:	a) In the north-Mangrove Plantation. b) In the South- Mangrove Plantation. c) In the East- Mangrove Plantation. d) In the West- Mangrove Plantation.
13. Pre-condition for Garden creation	:	The newly awakened char was initially muddy. When the grass grows in it, it is suitable for planting.
14. Companion Crops	:	No other plant grows in the primitive state except the uri grass. With the planting of keora seedlings. other species arrive.
15. Topography	:	First, a plain is formed in the mud. Tides inundate twice daily. Tides are strong from mid-March to October. Tides are slower in winter. So char is permanent. During November to January, silt accumulates more and the amount of fodder increases. At this time, 50 to 90 cm of sediment accumulates.
16. Soil structure	:	Sandy loamy clay soil.
17. Weather & Rainfall	:	Rainfall is high from May to September Annual rainfall is 2500 mm.
18. Seedling method	:	First fix pillar is surveyed and boundaries are marked. Later, seedlings with roots are taken from the mangrove nursery and the seedlings are planted by straightening the lines with the help of long ropes at a distance of 1.5 x 1.5 meters. After a few days, the seedlings are re-planted in the places where the seedlings die. Saplings are planted from 01/12/2023 to 31/12/2023 & 01/03/2024 to 31/03/2024 As soon as the saplings are planted, the saplings are drowned in the tide water. During high tides, silt rolls over the planted saplings and the saplings are thrown under the silt soil. This is why the whole year. Dhariya mangrove plantation should be planted.

K M Delwar Hossen
 Range Officer
 Char Alexander Range
 Coastal Forest Division, Noakhali

19. Name & Designation of the Officers, stuffs Involved in the garden lifting Activities:

- A. Mr. Abu Yousuf, **DFO**
- B. Md. Firoj Alam Chowdhury, ACF
- C. Mr. K. M. Delwar Hossain, Range Officer
- D. Mr. Md. Amran Ali, Forester, Beat Officer
- E. Mr. Md. Sher Ali, Forest Guard
- F. Mr. Md. Mazeva Uddin, Boat Man
- G. Mr. Md. Zaker Hossain, Boat Man

20. Signature of the officers Involved in the garden lifting Activities:

Sl. No.	Designation	Signature
01.	Beat Officer, Vayarchar Beat	 Md. Amran Ali Forester, Beat Officer Char Alexander Range Coastal Forest Division, Noakhali.
02.	Range Officer, Char Alexander Range	 K M Delwar Hossen Range Officer Char Alexander Range Coastal Forest Division, Noakhali.
03.	Assistant Conservator of Forest (ACF) Coastal Forest Division, Noakhali.	 Md. Firoj Alam Chowdhury Assistant Conservator of Forest (Landings & Boat) Coastal Forest Division, Noakhali.
04.	Divisional Forest Officer (DFO), Coastal Forest Division, Noakhali.	 Abu Yousuf Divisional Forest Officer Coastal Forest Division, Noakhali.
